

Python Developer

Job Summary:

We are looking for a skilled and proactive **Python Developer** with a minimum of 2 years of hands-on experience in software development. The ideal candidate should have strong Python programming skills, with experience in developing backend systems, APIs, and automation solutions. Experience in **Odoo** or ERP platforms will be an added advantage.

Key Responsibilities:

- Develop, test, and maintain robust and scalable backend applications using Python.
 - Design and implement APIs and data integration solutions.
 - Work closely with the front-end and database teams to ensure seamless system integration.
 - Participate in code reviews, testing, and deployment.
 - Troubleshoot, debug, and optimize existing systems.
 - (If applicable) Contribute to the development and customization of Odoo modules.
-

Required Skills & Qualifications:

- Bachelor's degree in computer science, Engineering, or related field.
 - Minimum of **2 years of experience** in Python development.
 - Strong understanding of object-oriented programming and design patterns.
 - Hands-on experience with web frameworks such as Flask, Django, or FastAPI.
 - Experience with RESTful APIs and database technologies (PostgreSQL, MySQL, etc.).
 - Familiarity with version control tools like Git.
 - Strong problem-solving and communication skills.
-

Preferred (Added Advantage):

- Experience working with **Odoo ERP** (custom module development or configuration).
