Zoho Creator

Job Summary:

We are looking for a passionate and detail-oriented Zoho Creator Developer with 3–5 years of experience in application development. The ideal candidate will have a strong foundation in Zoho Creator and Deluge scripting, with a keen interest in building efficient, scalable, and user-friendly business applications. This role involves working closely with internal teams to understand requirements, develop custom solutions, and streamline processes through automation and integration using the Zoho platform.

Job Responsibilities:

- Develop and maintain custom applications using Zoho Creator.

- Understand business requirements and translate them into functional applications.

- Create and customize forms, reports, workflows, and dashboards.

- Integrate Zoho Creator with other Zoho apps (e.g., Zoho CRM, Zoho Books) and third-party applications using APIs and Deluge scripting.

- Assist with testing, troubleshooting, and optimizing existing Zoho Creator applications.

- Collaborate with cross-functional teams to automate manual processes and improve operational efficiency.

Required Skills:

- Basic understanding of Zoho Creator and Deluge scripting.

- Strong logical thinking and problem-solving abilities.

- Familiarity with database concepts and application development.

- Good communication skills and the ability to work collaboratively in a team.

- Willingness to learn and adapt to new Zoho tools and technologies.

Preferred Qualifications:

- Bachelor's degree in computer science, Information Technology, or a related field.

- Certification in Zoho Creator.
